

# ANDY SCHOENFELD

## ARTIST BIO

Well known to the New York and Connecticut blues and jazz music scene as an organist and pianist, Andrew has played with artists such as Benny Wallace, Mike Longo and Chris Morrison. As a longtime associate of Mike Longo, (Dizzy Gillespe's lifetime keyboardist) Andrew has now both produced, directed and instructed on Mike's heralded video instructional series "The Rhythmic Nature of Jazz". Andrew has been instrumental in integrating the sounds of Be-Bop and blues and has found a way to bring fresh interpretations to the blues classics. Playing a Hammond Organ out of a classic Leslie speaker along with a vintage Fender Rhodes piano, Andrew has the prototypical blues sound combined with a master's technique.
