

DEEJ SG

ARTIST BIO

Deej SG will create a unique musical experience based around his original Blues-infused style with hints of *Jeff Beck*, *Billy Gibbons*, *Joe Satriani*, *Carlos Santana*, *Dickey Betts* and others. What is particularly unique about this is that Deej is an “older learner” who began studying lead guitar in 2010 at the age of 50 and has developed his own original and emotional style absent the influences that may have occurred if he’d instead focused on learning other guitarist’s material. Deej loves to play “in the moment” speaking from his soul with improvisational guitar.
