

The mission of the Waterboro Emergency Management Agency is to serve the citizens of Waterboro through effective planning for natural and man-made disasters.

Our goal is to save lives and protect property through coordination of an integrated emergency management system with local officials, emergency response organizations, support services, and volunteers. In the aftermath of disasters the local EMA supports local response efforts and coordinates disaster recovery operations from the local or county Emergency Operations Center. Waterboro EMA also coordinates and supports efforts to train and exercise with local officials, emergency responders, community service organizations, business and industry executives and citizens.
